Dehostconsulting
THINKING BIGGER FOR A HEALTHIER SOCIETY

AgriInnoHub
A Dehostconsulting platform

Cassava

Palm tree products

Hibiscus (roselle)

From Knowledge to Market. From Innovation to Impact.

Dehostconsulting is an international innovation, industrial transformation and market-development company, headquartered in Germany. Dehost AgriInnoHub is our platform and professional service ecosystem for agricultural value-chain development and industrial transformation.

Start with two foundational services

FOUNDATIONAL SERVICE
Problem Diagnosis
We identify the real constraint in your value chain, organisation or market before money is committed.

FOUNDATIONAL SERVICE
Strategic Advisory Support
We turn the diagnosis into decisions, priorities, partners and a practical roadmap.

They lead into six programme services:
Agricultural Value-Chain Development · Domestic & International Market Development · Industrial Innovation & Technology · AgriInnoHub Academy · Quality & Supply-Chain Development · Investment & Trade Facilitation

Strategic value-chain portfolios

Cassava
From agricultural production to industrial materials
Native & modified starch, food ingredients

Palm Tree Products
From plantation to diversified industrial value
Palm & palm kernel oil, oleochemicals

Hibiscus
From local cultivation to international speciality markets
Herbal beverages, botanical extracts

Portfolios describe strategic opportunity areas, not existing facilities, confirmed buyers or established supply. Images are AI-generated and representative.

BEST FOR
Governments, institutions, processors, manufacturers, buyers, suppliers, investors, researchers and innovators with a specific agricultural or industrial challenge or opportunity.

NOT YET FOR
Spot commodity orders, online marketplace registration, grant applications on your behalf or requests for guaranteed results. Tell us your need in section C.

What you can expect

- An evidence-based view of problem and opportunity
- Scoped proposals before any commitment
- Options for quality, processing, markets, investment
- Opportunities for farmers and rural enterprises

How to start: complete pages 2 to 6, save the PDF, and email it to
info@dehostconsulting.com
No payment is taken through this form. It is not an order or contract. Fees are agreed only in a scoped written proposal.

Section A — Organisation and contact information

Fields marked * are needed for us to reply. Please do not include identity documents, sensitive personal information, detailed financial records or confidential technical formulations.

Organisation name *

Organisation type (e.g. state agency, processor)

Country *

State / region

City / location

Contact person *

Position and responsibility

Business email *

Telephone or WhatsApp

Website (if any)

Section B — Stakeholder classification

Tick every description that applies. Then tell us the main relationship you are looking for.

Prospective customers and institutions

- ☐ Government institution
- ☐ Development agency
- ☐ University or research institution
- ☐ Industrial manufacturer
- ☐ Agricultural processor or supplier
- ☐ Buyer, exporter or importer
- ☐ Investor or financing institution
- ☐ Technology provider, innovator or start-up

Partners and productive participants

- ☐ Business association or channel partner
- ☐ Farmer or cooperative
- ☐ Other (please describe)

If other, please describe

Main relationship you are looking for

- ◯ Customer: commission services
- ◯ Productive participant
- ◯ Strategic or channel partner
- ◯ Not sure yet

Customers commission and pay for scoped services. Partners contribute capabilities. Farmers and cooperatives take part in and benefit from programmes.

Section C — Problem and opportunity diagnosis

Short answers are fine. This information helps us prepare a relevant first conversation.

Principal agricultural, industrial or commercial challenge *

How are you addressing it today?

Capability and infrastructure gaps

Quality and supply-chain challenges

Market access limitations

Available resources or existing productive capacity

Expected outcomes

Priority for your organisation

- ◯ High
- ◯ Medium
- ◯ Low

Urgency

Please select

Section D — Service interests

Select all that apply. Most engagements begin with Problem Diagnosis and Strategic Advisory Support.

- ☐ Problem Diagnosis (foundational)
- ☐ Strategic Advisory Support (foundational)
- ☐ Agricultural Value-Chain Development
- ☐ Domestic & International Market Development
- ☐ Industrial Innovation & Technology
- ☐ AgriInnoHub Academy
- ☐ Quality & Supply-Chain Development
- ☐ Investment & Trade Facilitation

Describe the support you need

Section E — Value-chain interests

- ☐ Cassava
- ☐ Palm Tree Products
- ☐ Hibiscus
- ☐ Other agricultural value chains
- ☐ Cross-sector industrial development

Other value chain (name)

Relevant products and applications

Opportunities you see

Intended markets (domestic, regional, international)

Section F — Proposed engagement

- [ ] Exploratory discussion
- [ ] Problem Diagnosis assignment
- [ ] Strategic Advisory assignment
- [ ] Technical feasibility assessment
- [ ] Training and capacity development programme
- [ ] Agricultural value-chain development programme
- [ ] Industrial innovation project
- [ ] Market development assignment
- [ ] Investment and trade facilitation
- [ ] Strategic partnership
- [ ] Channel or referral partnership

Section G — Commercial readiness

There are no standard prices. Fees are set in a scoped written proposal after the first discussion.

Intended project start

Please select

Budget availability

- ◯ Allocated
- ◯ Under consideration
- ◯ Funding required
- ◯ Not yet determined

Indicative budget range (optional, any currency)

Decision-making authority

- ◯ I can decide
- ◯ I recommend; others decide
- ◯ Not yet identified

Procurement or approval process

Funding requirements

Willing to commission a scoped professional service?

- ◯ Yes
- ◯ Possibly
- ◯ Not at this stage

Preferred next step

Please select

Preferred day and time for a first conversation (with your time zone)

Section H — Partnership and channel development

Complete only if you are interested in partnership or referral cooperation.

Proposed contribution to the ecosystem

Technical or institutional capabilities

Geographic coverage

Existing customer or stakeholder networks

Potential referral opportunities

Preferred cooperation model

Expected mutual benefits

Section I — Consent, privacy and submission

- [ ] Required: I agree that Dehostconsulting UG may contact me about this enquiry. *
- [ ] Required: I understand this form is an expression of interest, not a contract or purchase order. *
- [ ] Optional: please also send me occasional updates about Dehost AgriInnoHub.

We use your details to answer your enquiry, prepare a first conversation and, if you wish, a proposal, and, only if you ticked the optional box, to send updates, which you can stop at any time. How long we keep your details, and your rights to access, correct or delete them or withdraw consent, are set out in the Dehostconsulting Privacy Policy. Please do not send identity documents, confidential technical formulations or detailed financial records. Controller: Dehostconsulting UG (haftungsbeschränkt), Germany. Privacy enquiries: info@dehostconsulting.com.
